

VERN DAYSEL & THE BURNING BREEZE

STORY

Vern Daysel & The Burning Breeze is a four piece southern rock n' roll band out of Jensen Beach Florida.

From the ashes of their former band Vern Daysel, Coby Dante and Marcus Lee weren't going to let all the blood, sweat and tears of four years of relentless touring and hard work go to waste.

Since Daysel landed in the US from South Africa in 2019 they hit the ground running, averaging 150 shows a year performing at any venue in every town imaginable. With the band's persistent gigging schedule and their debut CD the name spread like wildfire and they quickly found themselves as one of Florida's most popular bands.

Taking the success and experience that they built up with their old band and blending it with Daysel's already well established solo career they are more focused and determined to be the perfect band to represent the state that birthed southern rock.

With Daysel's perspective of being from South Africa and the experience of being a career musician since 2006 blended with Coby Dante's sweet guitar sounds and poetic songwriting skills, backed by a strong rhythm section that includes drummer Marcus Lee who has performed in over 35 different countries and the naturally talented Nico Swarley on the bass guitar. This is the perfect group of guys to play this unique sound of bluesy, country, soulful southern rock.

ALBUM REVIEW: VERN DAYSEL – SHOOTIN' THE BREEZE/BLOOD OF A WOLF

In this special showcase, Vern Daysel introduces his music with tracks from 'Blood Of A Wolf'. First broadcast on Get Ready to ROCK! Radio, 17 December 2017 (38:26)

In amongst all the constant strife and political turmoil of beautiful South Africa, Vern Daysel is not so much a pony as a rockin', chomping-at-the-bit, axe-wielding stallion.

VERN DAYSEL – "COUGAR" IS AN INVIGORATED EFFORT FROM AN AUTHENTIC SOUNDING ROCKER!

A textbook example of the sum being greater than the whole of its parts, the single "Cougar" by Vern Daysel, far exceeds a cursory retreading of the player's leaning toward a bluesy southern rock style. Instead, he creates an impressive original that has a sound and feel all of its own. Unsurprisingly, Vern goes heavy on the guitar, but does not depend entirely upon his virtuosity to carry the record. The track is a rock enthusiast's dream, and the quality of the songwriting elevates the tune to match the level of the instrumental thrills and vocal aggression.
