BIOGRAPHY

Having recently immigrated to the U.S from South Africa, Vern has taken the biggest step so far in his 15 years as a full time musician.

After more than a decade of playing countless live shows, running bands, putting on Kiss and classic rock tribute shows to being a hired gun for chart topping artists and international stars, he kicked off his solo career in 2014.

Working as a true DIY musician he has built his brand from the ground up, playing over 150 shows per year, from small town bars in the middle of nowhere to some of the biggest biker events and festivals in Africa.

Since taking the solo route Vern has released two albums, "Shooting the Breeze" and "Blood of a Wolf".

These albums have opened many doors for him including signing a European distribution deal with Lions Pride Records, song placements in TV shows and movies and consistent radio play in the U.S, Europe, Australia and South Africa.

Vern has received many amazing write-ups in online music publications and has been featured alongside some of the biggest names in music in magazines such as the New York based Relix Magazine and the UK's Classic Rock Magazine.

With thousands of hours of stage time, years of experience and an understanding of what it means to be a performing/ recording artist, Daysel is set to make a huge impact on the music industry.
